Hi Everyone,

I'm having a bit of difficulty typing this today as I have suffered a rotator cuff injury to my shoulder. Of course it is my right shoulder, the side I use my walking stick on. I tripped over the vacuum cleaner power lead when Jill and I were cleaning the museum before a visit from our local member of parliament last Tuesday. 7 hours in the ED and then another 4 a few days later.

Why am I mentioning this? Well it is not a cry for any sympathy, BUT, a warning to you all to be careful at all times. None of us are getting any younger and we don't bounce back like we used to.

This issue has a lovely report on the Dandenong 150th Show from Dulcie S. and a heap of photos, Thanks Dulcie and Marg D. for that and the car list.

John J. has given us another item on Tiny Cars. Thanks JJ.

You will notice that the Coming Events have been moved from their usual place in the magazine. This was due to the inclusion of the Rosters for the two days of the swap meet.

Please note, that there are a lot of members who have not put their hands up to do a stint on either the Friday or the Saturday or both. **YOU ARE STILL NEEDED.** Please let the committee know when you can help out.

Please keep your items for the Newsletter coming, I do need them to place them in YOUR CLUB Newsletter.

Now, get your vehicle out and enjoy Summer 2022/23.

Regards Rick.

PRESIDENT'S MESSAGE

JUST A REMINDER IF YOU HAVE A CAR ON C.P.S. REGISTRATION YOU ARE REQUIRED TO ATTEND 2 MEETINGS AND 1 CLUB RUN PER YEAR TO BE ELIGIBLE, UNDER THE CLUB RULES, TO GET YOUR REGISTRATION FORMS SIGNED.

I WOULD LIKE TO WISH EVERYBODY A HAPPY NEW YEAR.

Well, another year has gone by, I am sure the older we get the faster the years go.

This February the Club turns 49 years old, and I hope that we will get back on track, having those normal events which we have all enjoyed in the past. 2023 begins with our Swap Meet on the 4th February. This is the biggest event that the Club holds each year, so please do your part to make it a very good and successful day. The 1st Casey Scouts will be helping us out on the day so please talk to them and help them settle into their new positions.

On the 14th. January we are having a B.B.Q./sausage sizzle at Akoonah Park with the Scouts and their parents. The purpose is to show them our vehicles and to give them a ride around the park or around the block in our club cars. This will be a new experience for some of the young ones and not so young as well.

We will meet at 10-30am at the Scout Hall in Akoonah Park and lunch will be about 12-30pm. The Club will supply a 'snag in bread', a bit like Bunnings. BYO drinks and chairs.

My thanks go to Mazz and Peter for organising the flood relief donations. On the 17th. December, through the CFA, they will be delivering all the goodies to the flood victims of Rochester. A full report will be in the next newsletter. Thank you, members for all your donations.

Our long weekend away in March 2023, is coming up quickly so please let us know if you would like to join us for a fun weekend and good time with plenty to see.

On 11th December last, my beautiful sister received her OBE. Yes, she turned eighty. We celebrated it with about 35 friends and family at a luncheon at Keysborough. Joy has always been heavily committed to doing work in the community through the Lionesses, the Country Woman's Association and other organization's. Keep up the good work, Sis, and thank you for always being there to help me out when needed. I'm looking forward to your 90th.

A Happy New Year to you all from Heather and myself. Ian.

Minutes of General Meeting of the Dandenong Valley Historic Car Club held on 2nd December 2022

Meeting Opened 8.00 pm

Apologies: June Stocking, Corry and Ben MacDonald, John Jenkins, Chris Donaldson, Max Tuckerman & Jeanie Sawyer, Roger Bowen, Paul and Lyn McMillan, Aub Smith, Byron and Janice Savory, Amanda Eagles, Paul Tangey, Rick and Jill Cove, Mark Zeigler

DANDENONG'S 150TH SHOW - 13TH November 2022

DANDENONG'S 150th SHOW - 13th November 2022

Dandenong Show - Sunday 13 November

Dulcie and Geoff Strahan

To say I was coerced into doing the write up for the car club display at the Dandenong Show this year is probably stretching the truth a little bit, but I was won over by an extra scone with jam and cream offered by our devious President.

After the threat of a wet day, Sunday turned out to be sunny and warm. Apart from some puddles here and there, it was dry underfoot also. We had more than a dozen cars so we were able to put on a good display and the cars always attract a lot of interest.

After the obligatory coffee on arrival we first wandered across to watch the entrants in the dressage events. The horses were a spectacle with their gleamingly manicured coats and carefully coiffed tails. One horse had to have it's bottom wiped before the competition started. Now that's dedication to your sport in my book. From there we headed to the craft pavilion and after looking at the prize winning cakes and biscuits, the decorated cakes and the entrants in the photography competition we found some of our fellow club members enjoying devonshire tea so we decided to join them for our second cuppa for the morning, after all it had been an early start to the day.

Following that we watched the chainsaw wranglers for a while. They must keep their chainsaws in top condition as they were cutting large logs like they were cutting through butter.

We were entertained for the rest of the morning firstly by Lachie Cossor's Outback Stockman Show from Queensland featuring his very well behaved Brahman Bull. Geoff and I have seen his show before in Longreach at the Stockmans Hall of Fame and at Corryong at the Man From Snowy River Festival. After that we headed across to watch the dogs in the Flyball competition. This event is always entertaining with teams of 4 dogs, all shapes and sizes, who race against each other over a line of hurdles to a box that releases a tennis ball when the dog hits it's paws on the springloaded pad. The dogs then race back to their handlers with the ball in their mouth.

We then headed back to the main oval to watch another entertaining show called the Flipping Disc Dogz that featured 8 beautiful border collies performing stunts and high flying frisbee tricks.

By now we decided that an acceptable amount of time had elapsed since our second morning tea so we headed to the Kiwanis tent for a yummy bacon and egg sandwich which we took back to enjoy in the company of our fellow club members.

Early in the afternoon a couple of representatives of the Dandenong Agricultural Society called by to award the prizes and sashes for their cars of choice. The winner of the Best Vehicle was Kevin and Carol Clarence's 1929 Ford A Sports Coupe with the Popular Choice prize going to Gary and June Stocking's new acquisition the 1934 Plymouth Sedan.

The club gazebo was then packed up as the skies were looking a bit threatening and the sun had disappeared, although the day remained warm.

It was good to be able to support the Dandenong A. & P. Society Inc for their 150th show this year and we hope they continue to successfully run this event for many years to come as it is very important to the people of Dandenong and surrounds.

February 26th. Wandin Draught Horse & YesterYear Festival. (Invitation event - see flyer in November's newsletter.)

March 26th Scoresby Picnic. (A Federation of Veteran, Vintage and Classic Car Clubs event.)

TINY CARS No.2

by John Jenkins

RENAULT TWIZY.

Sales commenced in 2012 in several European countries. As of 2019, only 30 000 had been sold. This electric powered car is suitable for two modest sized people and has storage space for two cut lunches. The Twizy is suitable for city use and modest longer runs which makes it somewhat superior to a mobility scooter except that it is considerably more elaborate. Not to elaborate however as doors are an optional extra and complications are minimized by the absence of a heater, radio, rear view mirror, power steering and air conditioner. Top speed is about 75 km/hr unless a hill is encountered.

CORBIN SPARROW.

Unkindly referred to by some people as the Jelly Bean Car due to its tiny plastic body, and also as it was available in various colours, all of them being intense hues reminiscent of jelly bean colours. It evolved from an electric powered motor cycle that was produced by Mike Corbin to set speed records.

An electric three wheeler, the Sparrow seats only the driver, hence only one door is needed. Top speed is claimed by some to be 75 km/hr, and 120 km/hr by others. Expect that the last claim would be under ideal conditions, without side wind or bends in the road, and possibly down a modest decline. Given that it was designed for commuting and city driving, the 75 figure seems realistic, especially as the expected range was 50 km. The Corbin Sparrow was produced from 1999 until 2010. Production was 289 vehicles. Dimensions; 1.2m wide, 2.4 m

BUDDY.

Produced in Norway commencing in 1991. By 2013, 1500 had been built. As with the Corbin Sparrow, the Buddy is an electric car designed for city commuting. Also common to the Corbin, most had strong bright colours.

Its short range of about 45 km was due to power being supplied by lead acid batteries. These were standard then as today's hi-tech batteries had yet to be developed. Speed was about 80 km/hr.

Construction was fibre glass supported by a steel frame. Seating capacity was three. Length is 2.4m.

TINY CARS No.2 continues.....

CITY EI

Another electric car and initially produced with lead acid batteries as was usual in 1987 when production commenced in Denmark. Later, production moved to Germany. Later models had extended range when lithium iron batteries became available. Some enthusiasts modified their City EI by fitting nickel cadmium batteries to extend range.

This three wheeler had a top that was hinged to permit entry by the driver. It was supported by gas struts. An optional extra was a rear facing seat for a child. Sales were predominately in Europe with some being sold in USA.

This article could be extended for many pages as the extent of tiny cars is surprising. A modest investigation revealed an additional 14, and they are mostly European cars. Our preference for larger vehicles is consequent on less congestion than many European cities, and also to our penchant for long distance travel.

DVHCC Member Happenings

Our Congratulations go out to Joy Tharle on her obtaining the OBE.

No, not the Order of the British Empire, but the "Over BI**dy 80 award.

Well done Joy!

A 'Big' HAPPY 80TH. BIRTHDAY from all of us at DVHCC Inc.

To Peter and Mazz Lafrank who recently celebrated their 50th wedding anniversary.

Well Done, and may there be many more, from all of us at the DVHCC.

Congratulations!

Congratulations!

***To Frazer and Carol Carless
who recently celebrated their
60th wedding anniversary.***

***Well Done, and may there be
many more, from all of us at
the DVHCC.***

And not to be left out Max has been busy as well.

All done with the son's wedding.

Looking pretty swish there, Max.

But not as swish as these lovelies.

The granddaughters like the mode of transport.

SOME WORKSHOP IDEAS FOR YOU.

DECEMBER Turn Your Car Over with One Hand—See page 31 25 CENTS

Weaver Auto Ambulances

A thoroughly practical one man machine for pulling disabled cars into the repair shop. It is readily attached to either axle of the car and quickly adjusted to meet every contingency; comparatively light; amply strong.

The main frame housing is designed with provision for placing the standard either in front of the ambulance axle or back of it, which is vitally important for a universal towing device. The height of the standard may be adjusted as conditions demand and the length of the telescoping tongue may be varied at will from 6 to 11½ ft. The cast steel wheels are 14 in. in diameter with 3 in. tires. Full length steel axle 1¼ inches in diameter. The telescoping tongue is of double strength steel tubing, and adjusts every 6 in. to 11½ ft. Shipping weight 140 lbs.

Each\$38.00

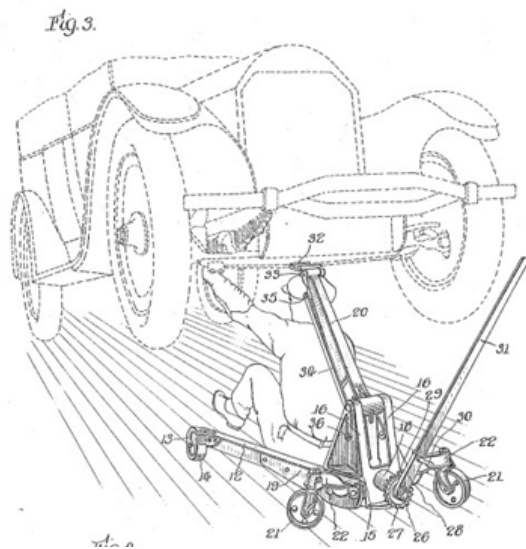

Above is my own 1915 Weaver Auto Ambulance which was found at The Big Garage, Bairnsdale where it had been since the new garage opened in 1935. It had come from Bairnsdale Motors in 1923 who adopted the name The Big Garage in 1926. See it in use on the next page.... ED

Wouldn't this make things easy,. or maybe not. I'm not giving up my 4 poster hoist for one of these rotisseries...ED

The Big Garage Bairnsdale with my 1915 Weaver Auto Ambulance bringing in a Model T Ford which had come to grief around 1929. The tow vehicle is a 1924 Studebaker. ..ED

MOTOR AGE
May 15, 1924

It's lots easier *with a* WEAVER Hi-Lift Jack

EASIER to lubricate springs, replace broken spring leaves and worn shackle bolts and attach shock absorbers—easier to elevate cars to a convenient height for inspection and repairs—easier to unload double deck shipments of cars—easier to transport truck wheels about the shop with the aid of the Truck Wheel Attachment (which can be secured at a nominal additional cost)—easier to handle countless other jobs that come into your shop every day.

The Hi-Lift Jack possesses an extreme range of lift of from 7 inches to 45 inches. It is simple in operation and ruggedly constructed to handle burdens up to 3,000 lbs. The worm gear construction of the lifting arm makes it impossible for the load to be accidentally released.

If you are interested in making more money on repair work this season, write for catalog describing this and thirty other Weaver money-makers. It's free and without obligation.

Weaver Manufacturing Co.
Springfield, Illinois, U. S. A.
Weaver Canadian Co. Ltd., Chatham, Ont.

The best equipped shop gets the business

I have a few unusual workshop tools which I will share with you now and again. The Weaver Auto-Ambulance on the previous page was patented in the USA on the 19th January 1915 with patent no.1,125,227. It is an interesting item to watch in action so see it here:- (Copy and paste if needed.)
https://www.youtube.com/watch?v=PEdEu96pohk&ab_channel=BritishPath%C3%A9

I also have a Weaver Hi-Lift Jack which was patented on the 20th July 1922, with patent no. 1,650,810, just over 100 years ago. This jack will lift more than 36 inches with full safety. The patent is visible here :-

<http://www.castleequipment.com/PDF's/Weaver-Patent-HiLift-1927-1650810.pdf>.. More to come ..ED.
